

Website Team Volunteer – The Women in Economics Initiative

Are you interested in gender, economics and know how or want to learn about managing a professional website? The Women in Economics Initiative (WiE) is looking for a new team member to join the website team!

This opportunity is well-suited to someone with experience or interest in website development, using Wix (Wix is a cloud-based platform that allows users to create and build websites without the need for programming skills or prior coding experience), and who has an understanding of professional aesthetics.

Being a part of the WiE team gives you access to a network of young professional economists, exclusive workshops and events, as well as the opportunity to help shape and grow an up-and-coming professional network.

As a Website Team member you contribute **approximately 2 hours per week** with the main responsibility being:

- Assisting the website team to manage the website
- Implement updates from other teams on our website
- If necessary ensuring new features work properly in all environments
- Conceptualization and development of a new web presence
- Attending our bi-weekly team meeting

The candidate should also be able to work reliably both in teams and individually, and have good English skills.

We want to build a diverse organisation which welcomes and presents a variety of perspectives on economics. We welcome all sorts of inputs from people of every gender, age, ethnicity, religion, sexual orientation, ability, background and sector.

If you are interested in joining the WiE team as a Website Team Volunteer we are looking forward to receiving your email (hr@women-in-economics.com). Please introduce yourself, explain your interest in the role and attach your CV. If you have any questions on WiE's work and this position, do not hesitate to reach out to us.

Please note that The Women in Economics Initiative is run entirely by unpaid volunteers and also this opportunity is an **unpaid volunteer position**.

We are looking forward to receive your application!
